

BODY ARMOR MODEL 83

QUICK RELEASE VEST ALPHA

KALISE Body Armor is manufactured locally by Inversys Corporation Sdn. Bhd. under joint production with MARS Armor (Bulgaria). It is designed to meet the specific needs of high quality body armor for law enforcement, military, and civilians worldwide. Manufactured with high quality materials, including woven aramide, unidirectional high performance polyethylene and hybrids for bullet proof vests. KALISE Body Armor obtain minimum weight at high protection and can be worn comfortably over clothing.

KALISE Body Armor inserts– Hard Armor Panel (HAP) and Soft Armor Panel (SAP) are made from the world's strongest fibre, Dyneema®. Ballistic resistance and stab protective inserts defeat all threat levels meeting the latest US, German and British body armor standards and are regularly tested in accredited international ballistic laboratories.
